EDUCATION

Guru Gobind Singh Indraprastha University - USAR **Nov 2022 – Jul 2026**
Bachelor's Degree - Automation & Robotics - **CGPA - 7.00** New Delhi

TECHNICAL SKILLS

Languages: C++17/20, C, Python, JavaScript

Technologies/Frameworks: React, Node.js, Express, PostgreSQL, MongoDB, Redis, WebSockets, OpenSSH, Docker, Linux/UNIX environments, REST APIs, TCP/IP

Tools: Git, Nginx, GitHub Actions, Vercel, Postman, VS Code

Core Competencies: Data Structures and Algorithms, Object-Oriented Programming, Operating Systems, System Design, Distributed Systems

EXPERIENCE

Outlier **Mar 2026 – Apr 2026**
AI Code Reviewer & Data Annotator Remote

- Reviewed and evaluated AI-generated code and technical responses for correctness, logic, edge cases, and adherence to task requirements.
- Annotated and ranked model outputs, identifying logical errors, inefficient implementations, and inconsistencies to improve code-generation quality.
- Applied structured evaluation criteria across programming and technical tasks, providing detailed feedback and corrected solutions.

Open Source Contributions
Contributor Remote

- Contributed code and documentation fixes to **aardappel/Lobster** and **Garudex-Labs/Caracal**, improving code quality and resolving inconsistencies between documentation and implementation.
- Contributed to **shogunlabs/augur**, improving IPO data pipeline reliability through retry logic, asynchronous data hydration, health-check endpoints, and PostgreSQL export workflows.
- Merged **10+ pull requests** across open-source repositories, including **knadh/pkg.bot**; fixed repository search tests and Repology database download handling, and continue contributing bug fixes and improvements to community-maintained projects.

PROJECTS

Lazy Clipper | **Python, FastAPI, Whisper, LLM API** | **github.com/drunktrader/lazy_clipper** **Sep 2026 – Oct 2026**

- Built an AI-powered YouTube clip generator transcribing audio via Whisper, ranking moments via LLM (OpenAI compatible API), and rendering 1080×1920 MP4s with burned-in captions using FFmpeg with libass.
- Designed a 4-stage async pipeline (Download → Transcribe → LLM analysis → Render) with per-stage status tracking, retry support, and capacity reporting via REST API.
- Containerized with Docker Compose, keeping API and PostgreSQL internal to Compose with only the frontend published, deployed over private Tailscale network.

Discord-Vault | **Python** | **github.com/drunktrader/discord-vault** **Jul 2026 – Sep 2026**

- Developed a secure Discord-based file vault for storing and retrieving encrypted files through a bot interface.
- Implemented **SHA-256** based integrity verification to detect file tampering and ensure data consistency.
- Implemented lossless PNG compression and decompression, reducing image storage overhead while preserving pixel-perfect data integrity.
- Automated file upload, retrieval, and vault management through Discord commands, eliminating the need for a dedicated frontend.

ClipIt | **Python, Next.js, Docker, FFmpeg** | **github.com/drunktrader/clipIt** **Dec 2025 – Jan 2026**

- Designed a **concurrent video processing backend**, handling multiple clipping requests with collision-free file management.
- Implemented **thread-safe ID generation**, ensuring deterministic output under parallel workloads.
- Integrated **FFmpeg** pipeline for efficient video slicing, reducing processing overhead.
- Deployed containerized service using **Docker**, enabling reproducible builds and scalable execution.

CERTIFICATIONS

- **Postman API Fundamentals Student Expert** - Postman
- **Career Essentials in GitHub Professional Certificate** - LinkedIn Learning
- **Software Engineering Job Simulation (JPMorgan Chase & Co.)** - Forage
- **Agentic AI Certified Foundations Associate** - Oracle University

ACHIEVEMENTS & EXTRACURRICULARS

- Achieved Max Rating of **1614** on **LeetCode**; solved **300+** algorithmic problems on LeetCode in C++.
- Achieved Global Rating of **123** on CodeChefs in Starters 215 (Rated) and max rating of **1159** on **Codeforces**.
- Represented the college Volleyball team in inter-collegiate tournaments and secured **3rd place**.
